Feedback,

Nadzima has shown awareness and actively participates in routines, transitions and following policies and procedures.

She gets down to the children's level when speaking to them and exudes kindness and warmth. She asks questions, requests clarification and receives constructive feedback well. She is becoming more confident

in assisting the children and helping with routines and transitions. We look forward to seeing Nadzima implement activities and help to set-up/create environments

based on the children's interests, needs and development
